

Living with CRPS?

If you've been living with CRPS for more than 6 months, you may be interested in participating in our research.

Exploring the lived experience for people with Complex Regional Pain Syndrome (CRPS) in Western Australia.

We are conducting research into the experiences of people who are living with CRPS in Western Australia. We plan to conduct interviews with eligible participants to better understand the impact of CRPS. We are interested to know what advice and pain management has helped and what could be improved. This research is being conducted by senior university researchers and their postgraduate Physiotherapy Masters students and from the School of Physiotherapy and Exercise Sciences in Curtin University.

The aim of the study is to gain better understanding of the lived experience of people with CRPS so we can improve your care.

Participation in the study will consist of a short interview with a Physiotherapist either in person or via Skype.

Location

- Pain Options, 7 Hardy St, South Perth WA 6151.
- Phone: 0402593491 / 0405819172

Are you eligible?

- Are you aged 18 years or older?
- Have you been diagnosed with CRPS by a doctor?
- Have you been living with CRPS for 6 months or longer?
- If so, we would be interested to hear from you.

If you're unsure if you meet the requirements, call or email a member of the study team:

David Carolan BSc.
Physiotherapist and Researcher.
